LEGAL
DEPT OF WATER RESOURCES

Dear Sharon,

I was busy delivering food to Cibola, so didn't get back to your nice presentation at Town Hall, I am not in favor of leasing or selling our allocation of Colorado River Water, I've lived here since 1970 and remember very well there was no water on the East side of Hwy. 95 (Central Blvd.) in the summer especially - folks hauled water and put in cisterns & open kegs - our fire dept. literally was a bucket brigade to put out fires - Water is a necessity for life many folks even now don't keep hydrated enough in Summer - I really feel this was not communicated properly and should have been brought up on a note of our people who live here. Thank you for your service to our State -
